💼 Professional Experience

Ahmedabad, India

Full-Stack Developer, *Techuz Infoweb PVT. LTD.* 🔗

Currently working at Techuz Infoweb PVT LTD as full-stack developer with one year of experience. I have worked on three projects: Tutorac, Getlitt and Employee recognition.

📂 Projects

Tutorac, *Ed-Tech Platform* 🔗

Tutorac is an online learning platform providing video courses and live entrance exam practice tests for classes 11 and 12. It offers cinematic video courses aided by 3D visuals to help students learn better. We designed and developed the entire platform from the ground up. Key features of the platform include rendering 4k video lessons, integrated quizzes and resources, live exam prep tests, and a student-teacher doubt clarification module.

Technology stack: nodejs, angular, mongodb, MySQL

Getlitt, *Education Website for kids* 🔗

GetLitt! is a gamified book reading and e-learning platform aimed to develop reading habits among children. It has a massive digital library of books across different genres like adventure, wildlife, science, biographies, fantasy, environment, humor, fairy tales, mystery and non-fiction. The entire platform is gamified with game mechanics and dynamics to make learning an enjoyable experience. It also organizes national and international-level reading olympiad for kids. The platform is a great success and has partnered with numerous schools and educational institutions. Recently, it was also selected for a startup accelerator funding program.

Technology stack: nodejs, angular, mysql, postgreSQL

Employee recognition

Employee recognition is an platform to maintain employees data like working hours, leaves, efficiency, activity, performance and declares the best performer of the month, employee of the month, emerging employee of the month and best leader.

Technology stack: nodejs, angular, MySQL

🏅 Awards

23/11/2022   **Emerging employee of the month,** *Techuz Infoweb PVT. LTD.*

Techuz Infoweb PVT LTD gave me the emerging employee of the month award for performing the best and growing efficiently.
